"Discover The Easiest Way To Turn A Customer Spending \$6 With You Into A Customer Spending \$60 With You, In Less Than Two Minutes..." How To Become An Instant Programmer I'm going to share with you ten very easy to use web programming tricks I've learnt that can add VERY powerful (and potentially very profitable) features to your website. As a quick example - how would you like to start using a programming trick on your site that one website is using right now to make customers happily change from placing \$6 orders to \$60 orders ... and all in the space of less than two minutes? And it's important to mention that even if you're not technical at all it doesn't matter, as long as you can use FTP, that's pretty much all you need... I'll talk you through every single step in great detail, so whatever your level of experience you can benefit with these programming 'tricks'... These powerful yet very easy-to-follow website programming tricks come in the form of ten brand new videos you view directly at your computer.
