Rap With a hip hop Jazz flavor 9 MP3 Songs HIP HOP/RAP: East Coast, URBAN/R&B: R&B Rap mix  
Details: This CD is about a time in my life when I was living as a criminal, all the stories youll here in this CD are True. Even Though theyll sound like the same things going on in the thug life today, My thing happen almost forty years ago. The year was 1969, I got out of the army, and I was a different person than when I went in, I didnt care much about life, mine or others. It was very hard at times recording this CD, it brought up forgotten memories about things I did, people I hurt, and people who hurt me, the most painful times were thinking about the people who are no longer here, they were lost in that life as I was, but they never found the way out. This CD made me realize one very important thing, time does not pass people by, people pass by time, the same crazy thing I did back then, are the same things going on today, almost forty years later people change, but the game remains the same. Peace
