Since Sept.12, 2001 they have been developing their sound into an aggressive and melodic juggernaut. Flat Atom defies most classifications and even within their own hometown they have a hard time finding people who can truly describe what exactly the "Flat Atom sound" really is. Part electro-dance rock, part slam-dance punk metal and all together assertive, Flat Atom refuses to succumb to categorization. Their highly emotive performances have garnered acclaim from all over the upper midwest and they have performed with such reknowned acts as "Venus DeMars and The House Of Flowers", "Beatallica", "Impaler", "Apocalypse Theatre", "Ministry" and many more. With the release of their new CD "Flux" in Jan. of 2007, the band hopes to expound upon their already respectable fan-base and catch the ears of an even broader spectrum of personalities.
