Piano driven rock with jazz vocal harmonies 5 MP3 Songs POP: Piano, ROCK: Modern Rock Details: You've heard them praised on National Public Radio, in the Boston Globe, in Keyboard Magazine and at college campuses across the country. Described as "excellent," "over-the-top," and "inspirational," the brothers Joachim and Erich Horsley lead America's only double-piano rock band, LittleHorse. Imagine serving a combo of Billy Joel, Santana and Ben Folds Five with a tall glass of funk and a side of full harmony, topped with witty lyrics, unforgettable melodies and driving grooves. Smother that with red-hot piano, hold the guitars, and let LittleHorse remind you of how good life can taste. Joachim, the lead vocalist, takes on the role of rock 'n roll story-teller, and both brothers set the piano on fire, sometimes dueling simultaneously. This is the first release from LittleHorse featuring special guests The Tower of Power horns. "Excellent over-the-top piano in service of their off-beat lyrics" -Keyboard Magazine "...Energetic, piano-driven pop," - The Boston Globe "It really moves!" -Here Now, NPR
