"Livingroom Cassettes" is a 9 song example of the versatility and quality of Lynn Brownell's songwriting. 9

MP3 Songs JAZZ: Traditional Jazz Combo, ROCK: Funk Rock Details: ***PLEASE BELIEVE

ME---THESE ARE REALLY COOL SONGS***** LIVINGROOM CASSETTES is literally 9 original songs

I recorded in about 4 hours over the course of 2 days. It was recorded in my livingroom on a 4 track

TASCAM porta03 cassette ministudio that I bought used in the early 90's, I think. The drum tracks I

created on a Boss Dr. Rhythm DR3. All the other instruments you hear were played by yours truly on a

Yamaha s90es synthesizer. I sang and played at the same time. Sometimes I played two instruments at

the same time such as the bass and piano in "The Rainy Side of Town." Please know that cassettes do

not make a very quality recording and this is a very rough recording of low quality. I don't have the money

right now to record these songs properly, but it sure was fun for me.
