Entertaining and eccentric songwriting in various styles with great harmonies and a talented and enthusiastic ensemble. Featuring Dominic Suchyta, from Steppin' in It, Seth Bernard, "Daisy" May Erlewine, Susan Fawcett and Miko Fossum. Sound by Ian Gorman. 11 MP3 Songs FOLK: Modern Folk, COUNTRY: Modern Country Details: I never knew how good these songs were until I heard what this ensemble did with them on this recording. In my mind the difference is between a stick figure of a couple of flowers and a real live bouquet, fresh and blooming. This is music that feels comfortably familiar and yet full of innovation and a catchy kind of eccentricity. The harmony singing is rich and full and honest, compelling the listener to sing along. It's an album that doesn't just serve as a backdrop, but sets a unique mood and draws the listener in to participate again and again in the poetic experience of music. It feels good and its fun.
