Hybrid Diva driven neo tin-pan-alley, funkry western, blues grassy, edgy-folk rock with thoughtful lyrics. A dozen different tunes. 12 MP3 Songs POP: Folkly Pop, ROCK: Folk Rock Details: The Rodeo Beatniks are a local quartet of seasoned musicians with diverse, yet intermeshed backgrounds. Theyve blended their varied influences into a sound which is truly their own. Their music can be described as a fun alternative to adult/alternative music, rendering tunes that range in style from tin pan alley, to country blues, to folk rock, variously composed/delivered with humor, satire, irony pathos. The Rodeo Beatniks menu features Janes succulent song stylings, Tobys spirited sauce, and Walters pan-seared vocals served with a medley of Keiths embellishments on the side. As customary, the arrangements are trimmed lean, served on wry and garnished with a zesty enthusiasm. The Rodeo Beatniks are currently performing in support of their first CD, No Prior Record, from which several selections have received airplay on University of Penns WXPB Sleepy Hollow program. Presently, they are recording material for their up-coming CD, due for release early in 2007.
