Easy listening, mostly upbeat with inspirational and positive lyrics. 10 MP3 Songs EASY LISTENING: Soft Rock, BLUES: Rhythm Blues Details: Smokin' George is a Piano Player who performs Dueling Piano's and single acts in Mid-Michigan. George has performed by singing, playing, and entertaining for over 30 years. There was a Piano Bar in Flint, Mi. (for a short time), and that's where George met Michael. George had some recordings that were just lacking the Great vocals and with Michael's extraordinary vocal talent I knew this cd would be special. When Michael heard the songs, he agreed to give them a shot. And what a shot! With music, sports, or any talent you develop, there seems to be magical moments, when things, and people become better than humanly possible! And in the making of this CD we definately had some magic moments, and there here for the world to enjoy! Four of the songs were previously released with George singing. Then the other six were works that have been sculpted over the last four years. Michael has one of those voices that just sound's like gold every time he opens his mouth! He was a pleasure to work with, we did push him in a few spots, and he took the ball and ran with it! We all love Music, Harmony, Rhythm, and work as a team, performing as one! Once again, we hope you enjoy
