Two icons of the Bay Area underground have just stepped up their game. Welcome the newest arrivals to the mainstream consciousness. 20 MP3 Songs HIP-HOP/RAP: Hip Hop, POP: Bubblegum Pop Details: Early in the 21st century, high above the bustling city streets of the greater bay area were two cosmic forces ready to unite. In the tightly connected landscape of the bay area hip hop scene, Jay Three and Enzyme Dynamite followed very different paths until the cosmos aligned to bring them together. Now, The Bayliens have landed... Enzyme Dynamite and Jay Three began recording together in 2004 when they produced the hit single "Stop What Your Doin". As two artists coming from different backgrounds, their styles created a unique sound unlike anything else being produced. Looking to build upon the buzz that they had created for themselves, Enzyme Dynamite and Jay Three launched a new promotional campaign and released a number of projects over the next two years. By pushing thousands of units in the streets thru hand-to-hand interaction, The Bayliens have developed a loyal and ever-expanding fan base. Teaming up with Dublin Beats (the producer of Xzibit's hit single "Family Values"), this is The Bayliens first full-length album. Featuring a variety of highly respected artists such as L*Roneous, Nump, D.U.S.T., Xienhow, and Cait La Dee, this album explores a number of different styles. Representing a fluid mixture of hip hop and hyphy, underground and pop, Crop Circles truly has something for everyone. This is one of the hottest albums of the year!!!
