Pennini, Workshop Leader Leader of Sacred Trips Beloved's music is truly enchanting. The music on this CD is a journey into love, joy and a very pleasurable and healing listening experience. The lush melodies, harmonies, rhythms and flow are both relaxing and renewing and often inspire great peace and a desire to dance. I highly recommend this CD and look forward to more music by this gifted and creative pianist/composer! N. O'Donnell, National Director Childrens Organization Thank you, thank you, thank you to the amazingly gifted artist Beloved from the bottom of my heart for sharing her gorgeous songs with the world on this new CD. The lush sweet sounds and lilting rhythms of her music are like poetry for the soul and gentle healing medicine for the heart. Each song has a rich and poignant beauty that uplifts the emotions and calls to a mystical union with love's deep imagination. The music effortlessly moves the listener's heart through a range of love, yearning, and passionate embrace with the beloved within, inviting new tenderness for life like a graceful dancer riding inner waves of light. The whole sound transports one to realms of utter serenity, peace, and magical beauty. Perfect for quiet

reveries, meditation, and relaxation, I often listen to the CD when I work at my desk so that my heart feels nourished and inspired. This is highly, highly recommended music of divine grace! - R. Remez, Pianist Painter I love this CD. I listen to it daily, while providing massage to the clients at the spa where I work. I also have my own copy and decided to give this CD to 7 members of my family this past holiday season. Everyone has been "Grateful" and so am I. Thank you, Beloved, for providing such beautiful heartfelt music. It lifts my spirit and relaxes me and my clients each time we hear it. M. Cannata, Spa Manager, Massage Therapist, Artist CD Notes: Grateful Day When starting this project, I wanted to record a CD of my instrumental music. A few of the songs I chose for this compilation do have lyrics, and they may be shared in fullness on another CD someday. I arranged the tracks on this CD in the order I felt guided to. As I looked at the final arrangement, I noticed that the titles to the tracks all lined up nicely and in proper order as the events of a day; from Dolphin Sunrise, to Ribbon Sunset, to Dreamtime Mist and Into the Deep. And, before I could even pose the question in my mind, immediately from my heart, came the answer, Grateful Day. Dolphin Sunrise As I received this song, in my inner vision was a beautiful sunrise over the ocean and dolphins frolicking in the water. Their joy as they leapt and bounded across the water felt exhilarating! On the Bridge of Our Love This song is a gift from Spirit to those who are missing or longing for someone. It was presented to me with the understanding that we can create a bridge and meet whomever we feel separate from on it any time we like, if we just hold sacred the truth of the love we shared with them in our heart. I encourage you to close your eyes, visualize a bridge in a beautiful garden and see your loved one smiling as you meet them there with an open heart. Love may change shape, yet love is the truth that lives forever. Into the Deep (The Whale Song) In June 2004, just as I was leaving Peru, I found an amazing crystal in a little shop. I carried it home in my lap like a proud mother and placed it under an orchid in my music room. This beautiful crystal changed the energy in the room. As I would play, the dolphins and whales began showing up in my music and I would feel and see them in the room. The orchid bloomed continuously throughout the year. In the Spring of 2005, while giving a channeling session to a client in NC, I was guided to give her this crystal to drop off Orcas Island in Washington. The guidance was that it would benefit the dolphins and whales and that it needed to be done during the first dew days of June. As she shared her guidance with friends, they, too, felt guided to accompany her on her mission. Several of them traveled across country and on June 3rd, they went out on the boat. The captain informed them that 2 of the 3 whale pods had just returned the evening before.

The whales surrounded the boat, and my friend said they all became overwhelmed with the feeling of love and gratitude from the whales. They were all moved to tears and dropped the crystal in the water with great love in their hearts. We found out later that the day before, in Australia, 75 false killer whales (really a species of dolphin that look like whales) had beached themselves, and the day the crystal was dropped, all but one returned to the ocean (thanks to the efforts of many rescue workers). to the efforts of many rescue workers. As I received this song, through my subtle awareness, I felt and saw whales swimming in circles deep in the ocean- under my piano. They seemed to be stirring the consciousness of humanity. As the song ended, they would swim out into the deep
