live album with Christina Lux strong voice and guitar, nippy noya on percussion, marius goldhammer on bass. high energy soul, songs and improvisation 11 MP3 Songs POP: with Live-band Production, JAZZ: Jazz Vocals Details: Lux live at the Stadtgarten Cologne. Everything about her is clear. Crystal blue eyes, which smile watchfully at life and the audience in the Stadtgarten in Cologne. Clear lyrics, which touch each listener directly, reaching them somewhere between recognition and 'got you'. And a voice that creates a clear presence, even then when the Lux simply announces the next title. Christina Lux is a book, a story, a wink of an eye, a guitar and a voice: dark, soft, moving and above all always in motion. Authentic with acoustic soul ballads, atmospheric with grooving sounds and brilliant with amazing improvised scat vocals. Marius Goldhammer (Bass) and Nippy Noya (Percussion) provided the accompaniment on an evening in October 2002, which was enthusiastically perfect with a lot of groove and soul. And, above all, this formation sounds as crystal clear as life. In other words a piece of Lux-ury.
