Explores new musical horizons through the celebration of the Pagan Spirit in story and song. 14 MP3 Songs NEW AGE: Spiritual, WORLD: Celtic Details: Soluna is Lucidian's expression of Love and Reverence for the Goddesses and Gods..the Ways and Mysteries of the Craft, and the evolution of Spirit. Soluna embraces both the diversity of individuality and the union of polarities beyond duality. The music on Soluna brings together songs for ritual and dance; songs inspired by mythology and Deities that reflect the Creative Powers that reside within us all; and the preservation of our rich Spiritual heritage through traditional music handed down from various points in time and place. Sol and Luna conjoin in ecliptica linea with the Earth...powerful energies are brought together in the lingering moments of these transits that are neither day nor night, and yet are both at the same time. The Sacred Union is symbolized for us in their dance across the Earthbound view of the sky. Complimentary opposites, God and Goddess align. Earth's balance needs both Sun and Moon. We coexist with the illusion of duality and the reality of Oneness... in the unity of extremes and opposites of one scale, rings one true harmony. The darkness and the light work with each other... the perception of balance is always changing. The changes are the constant... the Wheel is always turning...
