You know that awesome feeling you get when your favorite song comes on the radio?. That's the feeling that Reezin strives to give to his listeners on every song. This is "Feel-Good" HIP-HOP for those who like Hip-Hop, but want something new that'll put a s 18 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: Rap Details: About the CD... Have You Seen Hip-Hop is a campaign that Reezin has launched on behalf of all Hip-Hop artists (past, present and future) who dedicate their time, talent and resources to making quality Hip-Hop that will advance the Rap genre. Long before I got into the music business, I was a fan. Just like many of you I'm still a fan and loyal to Hip-Hop but I have grown concerned over the negative direction and diluted definition of Hip-Hop. I feel blessed and honored that one of the most successful music genres ever created originated during my lifetime and I feel obligated to speak up for Hip Hop music. It's no secret to listeners or viewers who monitor mainstream media (radio, TV, web) that we rarely hear the best that Hip-Hop has to offer. Even though great songs are being created by both major label and independent label artist, most of us will never hear these songs. Instead, we are flooded with negative images of Hip-Hop and allowing non-Hip-Hop artist to call their music Hip-Hop. This campaign is in No Way demeaning present-day Hip-Hop or any artist currently receiving air-play; I'm simply stating that record companies and mainstream media outlets need to broaden the styles of Hip-Hop that they release publicly in order to expose the current generation to all that Hip-Hop has to offer. Hip-Hop fans are so much more than were portrayed to be (money-chasing, sexually active and gangstas). Most of us are students, parents, educated, political, friendly, hard workers, social, fun, religious and in relationships. It's sad to realize that many fans are now beginning not to trust the quality of Rap music. It's even more disturbing that our youth are growing up with very limited exposure to true Hip-Hop. This leads us to believe that we are eliminating our next generation of artists and soon our best artists will have no

successors. We cant let this happen. Help me Find and Save Hip-Hop. How can you help? Hip-Hop fans should demand a higher standard from Hip-Hop artist, record companies and radio stations by supporting and purchasing ONLY the best Hip-Hop. Fans should choose what gets played on the radio stations instead of us being hypnotized by the companies as they play the same 15 songs over and over. Request what you want to hear; buy what you want to buy and support new artist who are doing new things. I am interested in partnering with major labels, media companies and artists to ensure that we begin to move Hip-Hop to a higher standard and increase its value to consumers that will promote more sales, less pirating, broader respect and longevity. Lastly, please do not think that I'm biased toward my CD, I Am Not. If my CD is not what you would like it to be, then do not buy it. It's more important to me that Hip-Hop advances than for me to sell CD's. I love this CD and think that you'll enjoy it BUT If you buy it and don't like it, let me know, I'll refund your money. Sincerely, Reezin About the Artist... Reezin is a artist that's sure to please the ears of all those who were raised on Hip-Hop, but are not in the club as much as they use to be. If u like the kind of hip-hop that makes u Feel Good without the profanity or stereotypes, then Reezin is for u. Unlike many mainstream rap artists who cater to the young, Reezin focuses on adults 25 to 50, we call it Feel-Good HipHop for grown folks. Reezin's songs place an entertaining twist to life's lessons, family, drama, and friends. DON'T GET IT TWISTED, just because it's adult Hip-Hop, doesn't mean its old school; This music is truly ground-breaking. Reezin is signed with the DFW Records and recently completed his debut CD. Before signing, Reezin sold over 16,000 CD's via concerts and club-scenes. Audiences have been entertained and captivated by his performances. His fans can expect to see his "Have You Seen Hip-Hop" campaign and CD launched to the web in the Spring of 2007. Touring begins the same month throughout the US.
