WordPress Profit System Plugin Make Fully Automated Sales, Thank You, and Download System for PayPal, ClickBank, and eJunkie Merchants Using The WordPress Profit System Plugin _Easily sell digital products with just a PayPal account -- PayPal is easy to use, but it doesn't provide a way to hide your Thank You page or protect your download links. WordPress Profit System makes it easy to do both. It'll hide your Thank You page so that only valid customers can access it and it will expire your download page and encrypt your download URLs so that your links can't be shared or posted on pirating forums. _Support multiple products in a single ClickBank Account -- WordPress Profit System lets you use separate sales, thank you, and download pages for each product you define. That means that you can place multiple products in 1 ClickBank account but still display individually crafted sales pages for each product. _Automatically cloaks your affiliate links -- The benefits of cloaking affiliate links have been discussed

frequently on this forum and elsewhere. WordPress profit Systems AFFILIATE mode handles this for you automatically! _Protect DownloadPages --Download pages can only be accessed through a link that includes the buyers purchase information. These pages are also set to expire after a period you specify -- usually 3-5 days after the purchase. _Protect DownloadLinks --create ugly, cryptic, expiring links that can't be easily shared or posted on freebie forums _Hide a digital products actual URL -- anyone who sees your download link won't have a clue about what your download filename is. Everything's all screwed up with numbers, letters, and special characters that don't mean anything to anyone but YOUR software. _Automatically generate PayPal, ClickBank, and EJoin payment buttons -- saving you tons of time fighting PayPal's button factory or customizing your own ClickBank buttons.
