

Automatic Program Development

[DOWNLOAD HERE](#)

Part I Robert Paige's Research: A Retrospective and a Proposal. Research Retrospective on Transformational Development of Programs; R.Paige. A National Science Foundation Proposal; R.Paige.- Part II Robert Paige: Brother, Friend, Colleague. A Song for My Brother; G.D.Paige. Robert Paige: Researcher and Teacher; H.Mairson. An Appreciation of Bob Paige; M.Davis. Bob Paige and the IFIP Working Group 2.1; H.Partsch. Remembrances of Bob Paige; A.Siegel.- Part III Contributed Papers. Transformational Derivation of an Improved Alias Analysis Algorithm; D.Goyal. Dynamic Programming via Static Incrementalization; Y.A.Liu, S.D.Stoller. Automatic Program Generation from Formal Specifications using APTS; E.I.Leonard, C.L.Heitmeyer. Universal Regular Path Queries; O.deMoor, D.Lacey, E.VanWyk. Derivation of Efficient Logic Programs by Specialization and Reduction of Nondeterminism; A.Pettorossi, M.Proietti, S.Renault. Computational Divided Differencing and Divided-Difference Arithmetics; T.W.Reps, L.B.Rall. Least Reflexive Points of Relations; J.Desharnais, B.Mller. Relativizations for the Logic-Automata Connection; N.Klarlund. Efficient Type Matching; S.Jha, J.Palsberg, T.Zhao, F.Henglein. Aspects as Invariants; D.R.Smith. Program Transformations; D.S.Wile. EAN/ISBN : 9781402065859 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Danvy, Olivier - Mairson, Harry - Henglein, Fritz
