

Development And Engineering Of Dopamine Neurons

[DOWNLOAD HERE](#)

1. Development of the Dopamine Systems in Zebrafish.- 2. Dopamine Systems in the Forebrain.- 3. The Role of Otx genes in Progenitor Domains of Ventral Midbrain.- 4. Terminal Differentiation of Mesodiencephalic Dopaminergic Neurons: the role of Nurr1 and Pitx3.- 5. Foxa1 and Foxa2 Transcription Factors Regulate Differentiation of Midbrain Dopaminergic Neurons.- 6. Transcriptional Regulation of their Survival: The Engrailed Homeobox Genes.- 7. Neurotrophic Support of Midbrain Dopaminergic Neurons.- 8. TGF- in Dopamine Neuron Development, Maintenance and Neuroprotection.- 9. Axon Guidance in the Dopamine System.- 10. Protocols for Generating ES Cell-Derived Dopamine Neurons.- 11. Molecular and Cellular Determinants for Generating ES-Cell Derived Dopamine Neurons for Cell Therapy. EAN/ISBN : 9781441903228 Publisher(s): Springer, Berlin, Springer, New York Discussed keywords: Dopamin Format: ePub/PDF Author(s): Pasterkamp, Jeroen R. - Smidt, Marten P. - Burbach, J. P. H.
