

# Information Criteria And Statistical Modeling

[DOWNLOAD HERE](#)

1;Preface;6 2;Contents;9 3;1 Concept of Statistical Modeling;13 3.1;1.1 Role of Statistical Models;13 3.2;1.2 Constructing Statistical Models;16 3.3;1.3 Organization of This Book;19 4;2 Statistical Models;21 4.1;2.1 Modeling of Probabilistic Events and Statistical Models;21 4.2;2.2 Probability Distribution Models;22 4.3;2.3 Conditional Distribution Models;29 5;3 Information Criterion;41 5.1;3.1 Kullback Leibler Information;41 5.2;3.2 Expected Log-Likelihood and Corresponding Estimator;47 5.3;3.3 Maximum Likelihood Method and Maximum Likelihood Estimators;49 5.4;3.4 Information Criterion AIC;63 5.5;Xn;675.6;3.5 Properties of MAICE81 6;4 Statistical Modeling by AIC;87 6.1;4.1 Checking the Equality of Two Discrete Distributions;87 6.2;4.2 Determining the Bin Size of a Histogram;89 6.3;4.3 Equality of the Means and/or the Variances of Normal Distributions;91 6.4;4.4 Variable Selection for Regression Model;96 6.5;4.5 Generalized Linear Models;100 6.6;4.6 Selection of Order of Autoregressive Model;104 6.7;4.7 Detection of Structural Changes;108 6.8;4.8 Comparison of Shapes of Distributions;113 6.9;4.9 Selection of Box Cox Transformations;116 7;5 Generalized Information Criterion (GIC);119 7.1;5.1 Approach Based on Statistical Functionals;119 7.2;5.2 Generalized Information Criterion (GIC);130 8;6 Statistical Modeling by GIC;151 8.1;6.1 Nonlinear Regression Modeling via Basis Expansions;151 8.2;6.2 Basis Functions;155 8.3;6.3 Logistic Regression Models for Discrete Data;161 8.4;6.4 Logistic Discriminant Analysis;168 8.5;6.5 Penalized Least Squares Methods;172 8.6;6.6 Effective Number of Parameters;174 9;7 Theoretical Development and Asymptotic Properties of the GIC;178 9.1;7.1 Derivation of the GIC;178 9.2;7.2 Asymptotic Properties and Higher-Order Bias Correction;187 10;8 Bootstrap Information Criterion;197 10.1;8.1 Bootstrap Method;197 10.2;8.2 Bootstrap Information Criterion;202 10.3;8.3 Variance Reduction Method;205 10.4;8.4 Applications of Bootstrap Information Criterion;216 11;9 Bayesian Information Criteria;220 11.1;9.1 Bayesian Model Evaluation Criterion (BIC);220 11.2;9.2 Akaike s Bayesian Information Criterion (ABIC);231 11.3;9.3 Bayesian Predictive Distributions;233 11.4;9.4 Bayesian Predictive Distributions by Laplace Approximation;240 11.5;9.5 Deviance Information Criterion (DIC);245 12;10 Various Model Evaluation Criteria;247 12.1;10.1 Cross-Validation;247 12.2;10.2 Final Prediction Error (FPE);255 12.3;10.3 Mallows Cp;259 12.4;10.4

Hannan Quinn s Criterion;261 12.5;10.5 ICOMP;262 13;References;263 14;Index;276 EAN/ISBN :  
9780387718873 Publisher(s): Springer, Berlin, Springer US Discussed keywords: Mathematische  
Statistik Format: ePub/PDF Author(s): Konishi, Sadanori - Kitagawa, Genshiro
