Fans of classic acts like Erasure, OMD, or Pet Shop Boys will find this album very satisfying, along with all of the many other Cosmicity albums. One fan wrote: The synth power machine called Cosmicity (AKA Mark Nicholas) creates some of the best underground synth music available. Smooth and polished, catchy lyrics, and great mixing are all put into every album. You can't ask for much more than this. This album contains two of his classics Too Far Gone and Orange. Both songs that will beg to be replayed. This is one of his more emotional moments in his vast discology. Perfect for driving or just listening while alone but not one of his "upbeat dance" albums. If you like the Pet Shop Boys album 'Nightlife' this will rightfully take a respected place in your collection!
