

Sediment Transport

[DOWNLOAD HERE](#)

1;Table of Contents;6 2;Preface;12 3;1 Introduction;13 3.1;1.1 Why a New Book on Sediment Transport;13 3.2;1.2 The Phenomenon and its Main Parameters;16 3.3;1.3 The Topography of a Drainage Area;24 3.4;1.4 Modeling the Phenomenon;26 4;2 The Classical Representation of the Sediment Transport;31 4.1;2.1 The Representation of the Flow;32 5;3 Turbulence and the Statistical Aspects of the Sediment Transport;45 5.1;3.1 The Incipient Motion;45 5.2;3.2 Statistical Bed-Load Models;50 5.3;3.3 Transport in Suspension;61 5.4;3.4 The Total Sediment Transport;77 5.5;3.5 Critical Remarks;81 6;4 Saturation and Asymptotic States;85 6.1;4.1 Sediment Transport as a Dynamical Process;85 6.2;4.2 Hypotheses of Extremum Principle;87 6.3;4.3 The Expanded Description of Grass;92 6.4;4.4 Limitations;94 7;5 Problematic Issues;97 7.1;5.1 Assumptions and Consequences of Rheological Nature;97 7.2;5.2 Nonlocal Properties of the Flow Field;105 7.3;5.3 Nonlinear Processes;112 8;6 Scales;119 8.1;6.1 The River as a System and Its Hydrological Scales;119 8.2;6.2 The Scaling of the Turbulent Flow;120 9;7 Roughness and Roughness Elements;145 9.1;7.1 Similarity Consideration in the Range of Constant Wall Shear Stress;145 9.2;7.2 Sand Roughness;147 9.3;7.3 d-Roughness;149 9.4;7.4 Real Roughness;151 10;8 Flow Separation, Topology, and Vortical Dynamics;155 10.1;8.1 Flow Separation;155 10.2;8.2 Basics in Topology;157 10.3;8.3 Separation Bubbles;162 10.4;8.4 Vortex Tubes and Vortex Interactions;168 11;9 Fine-Sand Dynamics;173 11.1;9.1 Stable Beds and Incipient Motion;173 11.2;9.2 Sediment Stripes as a Bed Form;178 11.3;9.3 The Arrowhead-like Bed Forms;180 11.4;9.4 The Ripple Formation;181 11.5;9.5 Dunes of Fine Sand;194 11.6;9.6 Antidunes;210 12;10 Mixtures of Medium Grain Sizes;211 12.1;10.1 Armoring;211 12.2;10.2 Turbulence Dominated Sediment Transport;215 12.3;10.3 Sediment Transport Dominated Separation;215 12.4;10.4 Induced Secondary Flows;218 12.5;10.5 Bed Forms Due to Sorting Effects;222 13;11 Gravel Beds;231 13.1;11.1 Transport Processes on Gravel Beds;231 13.2;11.2 Separation Versus Turbulence;234 13.3;11.3 Bed Forms in Gravel Beds;235 13.4;11.4 Complexity and Outlooks;236 14;12 Data and Strategies to Calculate Sediment Transport;239 14.1;12.1 The Input Parameters;241 14.2;12.2 Coherent Structures;252 14.3;12.3 Turbulent Flows;254 14.4;12.4 Flow with Separations;255 14.5;12.5 Suspended Load;259

14.6;12.6 The Significance of Experiments for the Simulations;261 15;13 References;263 16;14. Appendix;281 16.1;14.1 Albert Einstein s Letter of Recommendation for His Son ;281 16.2;14.2 Tables;283 16.3;14.3 Graphs;286 16.4;14.4 Symbols;289 17;Subject Index;293 EAN/ISBN : 9781402050169 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Gyr, Albert - Hoyer, Klaus
