

The Weight Of Numbers - Simon Ings

The Weight of Numbers describes the metamorphosis of three people: Anthony Burden, a mathematical genius destroyed by the beauty of numbers; Saul Cogan, transformed from prankster idealist to trafficker in the poor and dispossessed; and Stacey Chavez, ex-teenage celebrity and mediocre performance artist, hungry for fame and starved of love. All are haunted by Nick Jinks, a malevolent curse of a man who seems to be everywhere at once. As a grid of connections emerge between a dusty philosophical society in London and an African revolution, between international container shipping and celebrity-hosted expos on the problems of the Third World this novel sends the specters of the Baby Booms liberal revolutions floating into the unreal estate of globalization and media overload with a deadly payoff. The Weight of Numbers is an artful and deadly novel that traces the secret histories and paranoid fantasies of our culture into a future globalized in ways both liberating and hideous, full of information and empty of meaning. Simon Ings has delivered a storytelling tour de force that will alter some of your most cherished beliefs.
