For years, systems theory has been applied successfully in all fields of technology, but its impact on the world of finance has to date been limited. This book aims to rectify this situation. Readers will no longer be able to assert that money cannot be reliably earned on the financial markets: one might just as well say that man has never set foot on the moon. The potential reader may be frightened by the number of formulas, but can be reassured that almost all of them can be skipped. What makes the miracle of guaranteed trading success possible are the worksheets and the codes for Internet platforms which provide (at a click) functions that once had to be built with great difficulty. These worksheets and codes will be sent free of charge to anyone who requests them from the author (renato.dilorenzo1@gmail.com) as long as the request is accompanied by proof of purchase of the book, such as a photograph of the receipt taken on a mobile phone. EAN/ISBN : 9788847027060 Publisher(s): Springer, Berlin, Springer, Milan Format: ePub/PDF Author(s): Di Lorenzo, Renato
