

Vapor-liquid Interfaces, Bubbles And Droplets

[DOWNLOAD HERE](#)

Historical Review on Vapor-Liquid Interfaces.- Molecular Dynamics of Vapor-Liquid Interfaces with Evaporation and Condensation.- Boundary Conditions for Fluid-Dynamics-Type Set of Equations Based on Molecular Gas Dynamics.- Measurement of Evaporation and Condensation Coefficients by Shock Wave and Sound Resonance Methods.- Applications to Bubbles and Droplets.- Appendices EAN/ISBN : 9783642180385 Publisher(s): Springer, Berlin Discussed keywords: Fluidodynamik Format: ePub/PDF Author(s): Fujikawa, Shigeo - Yano, Takeru - Watanabe, Masao
