New interpretations of 18th and 19th Century classical music for solo piano music, with two contemporary classical compositions by the pianist. 9 MP3 Songs CLASSICAL: Piano solo, EASY LISTENING: Background Music Details: "Classical Works, Volume 1" was recorded in March 2005 as a response to audiences' requests for a CD of music by traditional composers. This endeavor gave Mr. Bergeron his first opportunity to share his interpretations of 18th 19th Century composers, featuring works by J. S. Bach, Brahms, Chopin, Paderewski, Skriabin and Debussy. Also on the CD are two of Mr. Bergeron's compositions for solo piano, including the first recording of his piece "Patience, Perseverance". As a performer composer Mr. Bergeron has been described as "emotionally charged" and "driven", often leaving listeners mesmerized by the depth and sonority of his music. Mr. Bergeron has four recordings to his credit, and he anticipates the release of another CD of solo piano works later this year. "Classical Works, Volume 1" was originally released in 2005; now complete with artwork professional packing, this CD is now available for purchase here at CD Baby!
