

Mp3 Ken Battista Band - Girl Gone Wild

[DOWNLOAD HERE](#)

Their most adventurous and energetic CD to date; head bopping funky horns, great vocals and infectious groove from first to final track. 10 MP3 Songs POP: with Live-band Production, URBAN/R&B: Blue-Eyed Soul Details: The fourth CD of original music from the Philly based Ken Battista Band is by far their most adventurous, energetic and edgy album to date. A much closer representation to the KBB live performance than previous releases. All four members are featured vocally. Guitarist, Juan Kamuca gets things rolling right out of the chute singing the driving, in your face, horn laced title track, Girl Gone Wild. KBB Diva, Anna Silvestera follows up with the Amy Winehouse inspired Safeword. Ken sings the British Invasion flavored Sleep On It on track 3. Drummer Dave Ross is featured on track 4 singing a blue-eyed soul rendition of Battistas Love and Learn. Thats just the beginning! All the people who have seen this band live, know that the night isnt complete without the KB version of the percussion infused Carlos Santana classic Soul Sacrifice. Battistas salute to Carlos is evident in Mi Faccia Vedere complete with jamming percussion, organ, horns, screaming Guitar, and slapping Bass. Old school Fusion at its best. Plenty more highlights on this new CD youll enjoy listening to your self! For more info and CD's of The Ken Battista Band visit... kenbattistaband.com Your comments and reviews are welcome, thanks!
