

Mp3 The Crawpuppies - Peaceful Amnesty

[DOWNLOAD HERE](#)

Classic Rock Influenced Alternative Pop 12 MP3 Songs ROCK: Modern Rock, ROCK: Folk Rock Details: The Crawpuppies surprise us with their original music debut. The sound is overall very poppy. Largely acoustic driven and sporting a fair amount of Beatles influence on songs like "Outta My Head" and "Ode To The Eggman (Heartbent Abused)." The softer "Slave To The Puppeteer" works just as well, driven by drummer Chris Karp's marching band snare rolls. "Out Of Control" has a strong James Taylor quality to it. Songwriter Chad Clifford writes compelling lyrics and blends them well with strong melody lines. In short, Clifford has crafted a nice collection of multi-flavored songs which his long-time band executes remarkably well.
