Stop Wasting Time & Effort For New Customers When Your Current Ones Can Make You Rich! Learn How To Generate Massive Cash Not By Pulling In New Prospects But To Keep Your Loyal Customers Close To You And Constantly Stuffing Cash Into Your Pockets! From: Timm Miller Dear Friend, Have you ever purchased a product and somehow felt that it would be the last time you bought something from that place? Did you somehow feel neglected by the salesman and once you made a purchase, they didn't want to have anything to do with you? Unfortunately, many customers out there feel the same. They get the idea that all the business does is grab their hard earned pay and ask them to scoot after that. The truth is, sometimes customers make a purchase from a sales guy based on trust alone. You see, your prospects and customers are human too. They want to deal with someone they know they can trust and will always give them value and be honest with them at all times. And this is where as a business owner you'll need to have to start looking at building a customer list so you can not only connect with your target audience, but also transform your skeptical subscribers into die-hard customers, and other advantages of

having a subscriber list include: You can save loads of time and effort in trying to reel in new customers. Imagine you have a list of a few hundred customers. All you'll need to do should you have a new product they would be interested in is just to blast an email out to all of them, and you'll have a substantial amount of cash even without having to source for new customers! Build trust with your current subscribers & customers. Offer them value, tips, freebies and trust me, they will love you for it! The more they trust you, or rather, become your loyal customers, the more likely they are to make any purchase from you at the drop of a hat without hesitation! This will give you a massive advantage over other new marketers who keep trying to rope in new customers day after day not knowing why their profits remain stagnant! The next question you'll probably throw at me is: Sounds well and good but how do I build a list? I have no inkling where to start or what resources I need to work on! Well, there's no need to worry. You see, when I started out building my own list, it was done the hard way. I had to spend heaps of cash on half baked list building ebooks which taught me squat. I was fortunate enough to have been sponsored to go for a marketing course (worth thousands!) where I discovered where I was missing it and what needed change. One year onwards and a couple of tweaks and I easily pull in four figure sums from my lists alone! And you're going to discover how to use the exact same model I did to generate me such awesome profits.

Introducing: Email Marketing Secrets Unlike most of the other list building guides out there which talk only about a couple of basic steps, slapping on an autoresponder and hoping for the best, this guide will give you a detailed and easy to understand method of utilizing the right resources and taking the right steps to have a massive list of rabid, hungry buyers at your fingertips! You will discover effective techniques that top marketers love to implement such as:

- * Tools needed to start off on your profitable list building endeavors!
- * The main component of customer relations you'll need to know or your business will fall flat on its face
- * Utilizing your list as your very own Public Relations team to announce new product launches!
- * A special 'free gift' for your subscribers that is fun to read and makes them look forward to hearing from you!
- * The system most marketers use to make sure their list is full of interested, hungry prospects and not freebie seekers!
- * How you can still maximize your customer lists for extra profit juice even if your company is not Internet-based!
- * A simple, effective way to discover if the product you're going to offer will be a mega success or mega flop
- * Minor customer service boo-boos that will irritate and frustrate your prospects, and how to avoid such situations!
- * Programs to help you discover if your email campaigns are a roaring success or more improvements are needed.
- * The ultimate no-no of email marketing which

could cause you to close shop almost instantly * Combining email marketing and affiliate marketing for an explosion of cash into your accounts! * Straightforward and effective methods of driving streams of targeted, hungry buyers right into those lists... generation tactics the price will increase. That's a given. I'm not going to ramble on about the importance of list building because you know yourself that this is a better way of growing your business and increasing your profits rather than always having to pull in new customers...and thanks to stiff competition online, prospects would rather stick to merchants whom they trust to offer them value than anyone else.
