Spit rock with a hip-hop influence is one way I'd describe De La Vega. Some acoustic songs as well. De La Vega plays diverse styles of music innovating their own unique sound. Compareable to Sublime, 311, Incubus, old BEP, Rage Against The Machine. 13 MP3 Songs ROCK: Modern Rock, ROCK: Hard Rock

Details: De La Vega is an aggressive and motivated band with influences drawn from an extremely diverse spectrum. A knack for strategic and effective marketing has become an intricate part of the band's success thus far. 1,500 people attended DLV's first show, and that number has only increased to numbers of more than 6,000. Having played Warped Tour 2004, Utah's famed "Big Ass Show"(with Hoobastank, Sum 41, Papa Roach, Goldfinger, Lost Prophets, and others), dates in Mexico, and most recently touring with The Presidents of the United States of America, De La Vega is on a roll. Listen on Fox's "Northshore" for "Lose Control" and "Let it Burn" off of DLV's album titled, "Innovation".
