Eaters - Digest

Twisted, intelligent, European Hip Hop 16 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, ELECTRONIC: Experimental Details: When Eaters make music they do it for themselves first and others second. They grew up listening to eighties hip hop and really don't like chart rap nowadays. The three man crew is made up of Laughing Gear (vocals, Production), Quiet Man (Vocals, Production) and Tuck Pendleton (Production). After spending a couple of years doing small gigs as part of The Pesky Varmints, Eaters could now be considered hermit-like having only performed once in three years, and then under a different name. One thing consistently said about them is that they are not quite like anything else out there. The Digest album is the first of a string of LP's in progress with Optimum, a homage to 1980's electro, due out at the start of 2006.
