Members of FM have played with such performers as: Tech9ne, The Living Legends, Rahzel from The Roots, Lyrics Born, Messy Marv, and The Kottonmouth Kings; making quite a following for themselves in the local music scene. The group was started by three childhood friends, Ryan "Woody" Woodcock, George Klemme, and Ross Fernandez in 2000. They describe their style as "feel good dance music", drawing their inspiration from many different sources, including Outkast, Coheed and Cambria, Dr. Dre, The Postal Service and even Chicago Transit Authority. After having recently added an 11 piece live band to their act featuring all-star local musicians, FM can now rightfully boast about their unique sound and jam-pack venues. Be sure to keep your eyes and ears open for their single "Crushed", an instant favorite. Their debut album, "Hi-5's Handshakes" (2005), is available now from Freezer Aisle Records, and is a must buy! ::::HI-5'S HANDSHAKES:::: Exposure and the Furious Minds have been playing the bay area music scene for over 6 years.
