Ambient, classical, minimalist and gentle solo piano music. 12 MP3 Songs NEW AGE: Ambient, CLASSICAL: Contemporary Show all album songs: Viaggi in aeromobile Songs Details: The music of pianist/composer Fabrizio Paterlini has been defined as ambient, classical, minimalist, gentle and relaxing... a "red glass of wine in a summer night", as he loves to say. Born in Mantua, the pianist and composer Fabrizio Paterlini started playing the piano at the age of 6, absorbing, at first, elements deriving from popular/ethnic music. After years of classical music, he turned in several rock bands, playing mostly progressive and hard rock music. At the end of the 1990s, Fabrizio started to explore new musical paths, concentrating on his piano as main instrument and trying to give notes to the deepest part of his soul. His music has been influenced by artists as Ludovico Einaudi, Yann Tiersen, Giovanni Allevi, Michael Nyman and many others. With his CD, you will be introduced in this young pianist's world and you will be surprise in noticing how comfortable it is.
