Soullly Jazz with delicate and driving grooves, stylish harmonies and melodies filled with finesse, elegance and fullsome soulful soloing guitar. 12 MP3 Songs JAZZ: Smooth Jazz, JAZZ: World Fusion

Details: This album came to pass as a result of a summer midnight stroll that was curtailed because of local air pollution. To the west superb and beautiful sunsets ! With a westerly breeze, TV Dinner fumes mostly Beef and Onion from the factory! To the North West, superb architecture With a North Westerly gale it's a POO burner and if the Thames is at low tide as well, Watch Out !! To the North, flatlands With a Northerly gale, think about highly toxic chemicals stored under pressure at a fertilizer plant. And give them the chance and it will be a Waste Incinerator too, with all the dioxins you can take! To the North East, flatlands and factories And in winter, Artic winds and in summer Rapeseed processing for vegetable oils. Pheww, what a whiff !! To the south is a bluff, a steeply rising hill The day before the Hurricane of 1987 I had an empty plastic bin outside my door, After the Hurricane of 1987, I had an empty plastic bin outside my door! In 1980 a house in the south of the borough, or at the top of the bluff, sold for 50,000, today sells for 250,000 to 300,000 In 1980 a house in the north of the borough, or at the bottom of the bluff, sold for 30,000, today sells for 90,000 to 95,000 I'm not a N.I.M.B.Y. (Not In My Back Yard !) More a EEEEEEE MY ! Enuf, Enuf, Enuf, Enuf, in MY Yard ! Dave Putson Dave is a musician, playing and teaching in South East London for the past 20 years. In 1989, Musicians Academy in Wapping provided an enrichment and visionary setting for Dave and his Electric Bass. Dave successfully auditioned for the MUSICIANS INSTITUTE of Los Angeles in 1991. Studying with some World reknowned musicians and tutors such as Gary Willis, Scott Henderson , Jennifer Batten. Dave received an accelerated degree in Music in 1992. Since returning to the UK Dave has played with several Bands most notably "So What" who toured extensively throughout the UK . Other bands included "Norbere's Nodules" (yes, it did mean

that !!) "Blue Green and Redd ". Dave now teaches Bass for 4, 5 and 6 string Electric Bass with over 25 courses listed on his website (joocypeach.com). The nucleus of "So What" has been utilised in Dave's current band "Joocypeach" . When Dave is not writing or working at his home studio he is teaching other local musicians the needs of the professional musician and the music industry. The Project The "Joocypeach" project has now come to fruition. It is an album of songs in the soul jazz genre with a view ! Dave took a conscious decision to use locally-based artists. The "Joocypeach" album "Midnight over Erith" will see both art work and the musicianship of local professionals. The album itself contains 12 songs totalling over 60 minutes of music. Three of which are vocal tracks. There has already been radio play in Moldova a small East European country on the Black Sea. This is as a direct consequence of the involvement of singers from The Moldovan State Opera in the final track of the album. These vocal tracks being the only non local intervention.
