The four of us have been friends for years. We've played together in one combination or another for as long as we can remember. Smiley and Joe are brothers. Randy and I might as well be, as we've known each other forever. We began writing "Mental Issues" in late January. By June we were mixing and mastering the CD. This was our first try at recording our own album. It was just the four of us involved.

When we all agreed that the cake was baked-we sealed the lid and called it a done deal. We sent out the first copies in October to as many college stations as we could. Over 100 stations have added Mental Issues to their play list. The Darelicks line up... Smiley Baxter on bass, vocals and guitar. 6' tall, 155 lbs. Brown hair, brown eyes.
