Exclusive Site Building & Features You Wont Find Anywhere! SEO Keyword Article Management System - This is one of our secret weapons. Remember that all your content is unique and fresh, created just for your site... then watch what happens each time a visitor (or search engine) comes to your site! The software allows you to specify what article you want shown for a specific keyword phrase. In the past, you were forced to use an article rotator on your site if you had more keywords than articles. Now you can specify a specific article per keyword or let the script randomly display an article. As you add more articles, you can easily assign them to new keyword phrases. SEO Friendly RSS Feeds - Youve heard all the buzz about RSS, right? This is a whole new channel for your information, and the custom RSS script weve created (you cant get this anywhere else) creates RSS news feeds that the search engines will love. All you do is choose the keywords and the source of the feed, and the script does the rest. Affiliate

The search engines put a lot of weight into these when crawling your sites. Now, you can add different phrases, descriptions and headlines that will be rotated on your content sites. This will also lower the footprint of your sites. Image rotation next to AdSense and Affiliate Ads: Add as many 125x125 images as you want to your sites and the images will rotate as your pages load.
