[DOWNLOAD HERE](#)

My music sounds like a fusion of classical and electronica music mixed with some rock, blues, country, and folk. 6 MP3 Songs in this album (13:11) ! Related styles: CLASSICAL: Art songs, ELECTRONIC: Ambient People who are interested in John Denver Johann Sebastian Bach The O-Zone should consider this download. Details: My Name is Alex Balla and Ive been involved in music since I was in the second grade. I got my first guitar when I was seven and Ive been playing ever since. For the past few years Ive been writing mostly pop and folk songs, but recently I have been taking my music in a different direction. Using a notation program and Garageband I have been able to compose and edit classically influenced electronic works. I do mostly everything strictly by ear, including the compositions I have just released in my first album entitled Shine (*IMPORTANT* 'Shine' is currently being sold on mini CD's). I have a sparse background in theory and mostly let the music take the direction it wants to go in. I still write pop and folk songs and I still play my guitar everyday. Hopefully in the near future Ill be releasing tracks that fuse classical composition and electronic music with the pop and folk songs Ive been writing for most of my life. I hope you enjoy my work as much as Ive enjoyed creating it.
