Brought together by a love of bands such as Radiohead, Smashing Pumpkins, Depeche Mode, Muse Pink Floyd, founding members Zach Rell (Vocals and Guitars) and Randy Land (Bass, Synths, Programming) set out to write songs that would connect with their audience on many levels. They quickly set their sights on drummer extraordinaire, Brian Mullins, to solidify the lineup. From their simple beginnings of making bedroom studio demos, to their upcoming album release, Bamboo Needle has managed to stay true to their original vision of creating music that touches the soul and stirs the mind. This trio possesses an already powerfully engaging live show that is cultivated from the members' years of sharing stages with a number of national acts (P.O.D., Switchfoot, Reliant K, and Chevelle). With a quickly growing worldwide online fan base, mysterious front man Zach, visionary Randy, and the ever energetic Brian appear to be well on their way to bigger and better things.
