Melodic, Meaningful, Acoustic ranging from Folk to Gospel and Latin to Pop 10 MP3 Songs FOLK: Modern Folk, COUNTRY: Country Folk Details: Charlie Heffley Music that touches a common place which lives and breathes in all of us... Melodic, sincere and topical are words which best describe the music of singer/songwriter Charlie Heffley. A Child of the 70's, Charlie's intricate melodies and down to earth lyrics are reminiscent of great American songwriters such as Jim Croce, Dan Fogelberg, and James Taylor. "The world is full of stories and fascinating characters," Charlie says, "...writing about them has become a passion for me." Away from his home in Lorain, Ohio; Charlie spends most of his time on the highways driving semi-trucks full of cars. The time spent alone in reflection of himself and the world has proven beneficial in his songwriting process. Charlie is a self-taught and seasoned musician writing and performing everything from his own brand of folk/pop/rock, to metal and R&B. Recently Charlie has begun working with Philadelphia producer Simon Illa on the full-length acoustic project now available here at CDBaby, as well as playing multiple live acoustic shows to packed crowds throughout the midwest and east coast.
