

# Mp3 Dan Gilliam - Back Road Bandit

[DOWNLOAD HERE](#)

Traditional Country roots with the sound edge of today's top artists. 10 MP3 Songs COUNTRY: Modern Country, COUNTRY: Traditional Country Details: Dan Gilliam's life has, does, and always will revolve around his family, and his love for music...be it listening to enjoying the works of others or writing recording his own. He is a multi-talented artist who wrote, performed, sang, engineered, mixed and mastered his entire album...except for the steel guitar, fiddle, and a few piano parts. He began writing music at the age of 12 when his grandfather bought him his first guitar. Like all other young musicians, he and some friends formed a band in high school and topped off their not-so-spectacular career by angering several parents at their school talent show...it seems they might have been just a bit too loud and rowdy! As a performer, Dan established and performed in several bands through the late 90's and into the new century, as well as working as a songwriter, studio musician and touring drummer for various regional artists. As for the here and now, he is promoting his solo album debut, "Back Road Bandit". Dan has a Country music style all his own...so order a CD today and help spread the word. Enjoy! People who are interested in George Strait Alan Jackson Toby Keith should consider this download.
