

Mp3 De Eenheid - Sampler

[DOWNLOAD HERE](#)

This is only jamming in President Steyn Platsoen nbr 1 in Holland Amsterdam in the squat and in some many different places from Holland;the Hague and even in the USSR Hungary. This cd is recorded on MP3. 50 MP3 Songs FOLK: Angry, ELECTRONIC: Industrial Details: Group of squaters living in Holland in a building 4 floors.Took a while for us in actually building this monoblock in the east of Amsterdam with a nail and a hammer until it was demolished by the state this squat.Playing music and having a bar where it was possible to have a drink for free and being a bartender for free also;never interfering in politics that for us was a mistake;we used to party in different places from Amsterdam;always being loyal with each other going down to Berlin also and admitting our judgements in general;I used to work also as a house cleaner having work was not that easy for being illegal in Europe;that we use to say it was only in the squat field. But music was represented by us just for the sake of jamming and having fun. Reality according to politics we would never interfer and even in the squat scene also only we could be interested in hardcore bands and punk industrial and we've met so many people;from different sorts of political awareness;we should be caring of ourselves more than anything else. The rest who cares.Probably the government pointing at you the direction would be just the point that we never understood. The cd is got from tapes but we have passed it to the language of MP3 as it is so long. Nowadays we can buy 10 cds for the 1 but then we had the ambition of only 1 cd. Now it is 10 for 1(more less 10 cds in 1 cd).
