A Pop Rock recipe with a retro spice. 6 MP3 Songs ROCK: Modern Rock, POP: Today's Top 40 Details: The newest sound to come to you out of south-east Michigan, F/stop is going to change the way you listen to rock. Their sound which has been described as a hybrid of retro-rock and modern pop-rock cannot easily be compared to anyone else. All the members of the band have previous experience playing with bands in the south-eastern Michigan area, however they decided to take a different approach this time. Instead of playing live and building a fan base in the beginning, they spent nearly a year with producer Michael Lutz (Brownsville Station, Ted Nugent, South Normal) fine tuning their sound and working on their debut EP, "All in Love is Fair," which was released in August of 2003. After locking themselves away the entire summer these guys are ready to explode onto the music scene. We promise you've never heard anything quite like it!
