METAL: Progressive Metal, ROCK: Punk Details: FYDOLLA HO - UNHINGED The Lunatics really have taken over the Asylum..... Fydolla Ho is a twisting, twisted explosion of sound, taking equal parts Emo Metal, creating an incendiary live experience. FDH are fronted by cult film T.V. actress Shawnee Smith, Seemingly lost in a world of her own, oblivious to her surroundings while the audience is oblivious to anything else. She demands your attention, being sexy and downright scary in equal measures. It takes a special group of musicians to rein in such an in your face figurehead. From an initial studio line-up that featured members of Suicidal Tendencies, Skindred Machinehead, Shawnee has recruited one of the most accomplished, intense dynamic bands on the scene today. Original in an increasingly generic scene, this is the perfect soundtrack to Shawnee's downward spiral into dementia. FYDOLLA HO - An aural train wreck of a band.
