edgy,guitar driven,hook-filled modern rock with a unique yet familiar sound. 7 MP3 Songs ROCK: Modern Rock, ROCK: Emo Details: Indie meets arena rock. In a climate filled with bands built solely on a "sound", Gazz stand out as a band built, not only on their distinct sound, but on well-written songs, emotionally charged performances and an undeniable "presence". Gazz are, all at once, familiar and fresh. With the charismatic appeal of The White Stripes, the raw emotion of Smashing Pumpkins by way of crunchy guitar and dramatic grandeur, lyrics that are both refreshingly candid and meaningful on a universal level and melodic hooks, indie-pop sensibility and creamy/crunchy vocal textures of The Pixies, Gazz are alluringly quiet, infectiously loud, unabashedly rock, unapologetically pop, hauntingly moody, and absolutely infectious in their delivery of well crafted and highly memorable songs that give voice to thoughts that we've all had, feelings we've all felt and dreams that we've all dreamt. Gazz are much bigger than the stages they grace.
