A soundscape of instrumental music painted on to a landscape of hopes, dreams, adventures and victories. 9 MP3 Songs EASY LISTENING: Background Music, NEW AGE: Ambient Details: Ginger Clark draws most of her creativity from her own life experiences. As a three year-old, she would come home from church, go directly to the piano, and pick out the notes to hymns she liked - one note at a time. When she was five, she began taking piano lessons, and she continued the lessons until the age of thirteen. At that age, she became bored playing classical music and disliked having to play songs for competitions in front of judges. So, she quit. That is, she quit piano lessons - but she never stopped playing the piano. Through the remainder of her adolescence and on into adulthood, she also learned to play the keyboard which allowed her to experiment with various other instrumental and computer sounds. Although her songs contain many instrumental sounds, when composing, Ginger always goes to the piano first. That's where it all started - with the piano, when she was a child - playing one note at a time. Check back for new releases by Ginger in 2006!
