Heartfelt songs and soulful blues influenced rock. 11 MP3 Songs ROCK: Classic Rock, ROCK: Hard Rock Details: Founder member of almost famous Cheltenham band Palmer and former lead guitarist in Release, Graeme is now based in his native Scotland writing and recording. Influenced by artists as diverse as Cream, the Beatles and Springsteen, this album is a collection of songs written over the last ten years and recorded in 2004 / 05. Although primarily a Blues / Rock guitarist, Graeme also covers all the instrumental, vocal and production credits on this one. The album cover was designed by Graeme too. The album was made with the help of an overworked Apple Mac, a Behringer desk, and various guitars including: Gibson Les Paul Studio, 1987 Fender Stratocaster, Fender Deluxe Nashville Telecaster, Taylor 310, Gordon Smith GS1, Line 6 Variax, Godin XTSA and a trusty battered 1984 Westone Thunder Bass. Also thanks to all the guys and browsers at these websites macidoland macjamswho provided very valuable feedback during production.
