World Beat Flamenco Fusion is a marriage of Latin guitar and other genres of music such as Techno, Dance, Middle Eastern and Jazz. There is a song for everyone and every mood on this CD. 12 MP3 Songs JAZZ: World Fusion, WORLD: World Beat Details: The music genre of this CD is best classified as "Flamenco World Beat Fusion" because my guitar training is in classical/Flamenco guitar and my compositions are a mosaic of various cultural pieces acting as a reflection of my collective lifetime experience as a musician and a person. I am a Flamenco guitarist who is interested in combining Flamenco with other genres of music such as Techno, Jazz, Dance, Middle Eastern, Classical, etc. The term World Beat Fusion refers to the fusion of different musical styles in ways that are only possible from a globalized and multicultural perspective. You will find on this CD a song for virtually every musical taste. The casual listener will enjoy the unique sound of this fusion music, and the recording aficionado or the musically sophisticated listener will appreciate the carefully woven ethnically distinct sounds and tracks. Every track aims to embark the listener on a journey to distant lands in an attempt to foster understanding and tolerance of the sounds and tastes of other cultures. I am committed to promoting world fusion music as a means of fostering cross cultural understanding and harmony through music.
