Passionate, pop, acoustic, girl rock with catchy hooks and sincere lyrics 12 MP3 Songs POP: Delicate, FOLK: Power-folk Details: Meet Heidi Hensley HEY YOU PEOPLE! My name is Heidi Hensley, and I have been touring the southeast with my guitar trying to share my story with people like you. I'm 24 and I'm a crazy chick looking for anyone to listen to what I have to say. This is my first self-produced album "I'm Alive" and within it you can find my struggles, my passion, and my message. The contents of the CD range from catchy pop tunes like "I'm Alive" (the first track), that talks about that crazy feeling that we sometimes get when...I don't know... the seasons change...or we dye our hair some crazy color...or we just come alive for some reason and we walk around on a natural high, to tracks like "Out of Line" that talks about a spiritual struggle within myself - and trying to do what I think is good for me versus what God thinks is good for me. The CD is diverse and alot of fun. I play most of the tracks on the CD (which...if you are a drummer - don't criticize!) and all of the songs are very important to me. I have included the lyrics in the CD - for your pleasure.....SO CHECK IT OUT! It may have taken me 24 years, and 94 songs to reach you.....but I'm Alive!
