ROCK: Modern Rock, ROCK: Jam-band Details: Johnny Socko is a 5 piece band featuring ROCK, HORNS, MELODIES, and RHYMES. Featured in CMJ's Top 100 album chart, the theatrical trailer for 8 Crazy Nights, MTV's Undressed, and a town near you, Socko has scored the "Album of the Year" honor for their Nov. 2002 independent release! * "Produced by Ken Lewis, whose credits include work with Mary J. Blige and Jay-Z, Johnny Socko delivers a schizophrenic band to its fully realized form. Listen for an array of cinematic transitions, with the action moving to and from pop-rock to hip-hop. At a time when most rock-rap efforts suggest a marriage of Korn and N.W.A., Johnny Socko embodies the spirit of Cheap Trick and Biz Markie." - David Lindquist, Indianapolis Star * "Make no mistake, Johnny Socko is a stunning achievement. Comprised of five new songs and six of the group's best-known older numbers. It's cram-packed with different sounds and moods. The band says it prided itself on its versatility in the kind of songs played, but found a new unity of purpose in how they played them." - Steve Hammer, NUVO Weekly * "How many bands have played 2,000 shows and toured 40 states in their own tour bus? They've sold 25,000 records on their own. That kind of stuff is what got me interested in them at the beginning." - Ken Lewis, producer * "If you spend an enchanted evening with these turkeys, you'll walk away confident they genuinely enjoy what they're doing and whom they're doing it with. Doesn't sound like much, but not until you experience it in person do you realize how rare Johnny Socko really is." - Rob Harvilla, The Cleveland Scene
