Gem Mystique is a colorful and radiant journey through the twelve birthstones. 12 MP3 Songs

ELECTRONIC: Ambient, NEW AGE: New Age Details: Each of the 'twelve birthstone' compositions is translated from gem to 'Gem Mystique' by recording artist Jon Galfano. Following months of research by executive producer Sharon Laura Williams came the discovery of the intrinsic folk lore and mental, physical and spiritual properties of each gemstone, as well as the musical vibrations of each. The twelve melodies are comprised of piano, rich strings, and beautifully blended synthesized sounds: from the Garnet of India to the timbre of Turquoise. 'Gem Mystique' has been created to bring out the warmth, beauty and character of the gems for your listening pleasure.
