Not an eight song set but a thirty-one minute listening experience. Seamless track changes create the illusion of dialing through the FM radio and discovering a bunch of musical styles. Best described as "cross genre." 8 MP3 Songs POP: Party Pop, POP: Quirky Details: "My idea was to make a CD weaving together various musical styles while eliminating the silence between track changes. To accomplish this, song placement was critical. Overlapping songs needed to be in the same or relative key. In addition, song transfers were to give the illusion of the album taking place in different locations. Consequently, the listener becomes actively involved in the CD's progression and presentation."
