A hallucinogenic blend of ethno-drones, industrial manipulations and ambient textures. Metabolic Music to open your third eye. 5 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Experimental Details: CD-EP phase9.tv - EDITORS PICK \*\*\*\*\* Comparing Notes is ... a five-track EP of hypnotic, tribal ambient that fuses tablas, layers of pulsating electronics and distant vocal samples into a mesmerising, trance-inducing brew. There may only be five tracks, but they shift and evolve in spectacular fashion. DUAL UNITY, for example, builds from a bubbling rhythmic intro to a shimmering, blissed-out soundscape. At times, the music borders on the paranoia-inducing tension of isolationism or the industrial atmospherics of Forma Tadre or Download, but warm melody prevails throughout. A ghostly, stirring combination of early Delerium, Bill Laswell, Future Sound Of London, On-U Sound and Talvin Singh and well worth investigating. [Mike Bayross]
