Alternative Folk 15 MP3 Songs POP: 90's Pop, FOLK: Power-folk Details: Alaskan-born, singer-songwriter, Marty Baggen's first release wraps his unique blend of lyrics around an eclectic array of instruments and arrangements. You may find a love song or two, but not before a ballad about an accused assassin, a nifty gem that peers into the mind of a famous cult leader (see if you can guess which one), along with the usual cheerful thoughts from a death row inmate to his mother. Baggen decided to write and record an album when he realized his career at Hallmark's greeting card division was probably going nowhere. God Plays Dice features the first collaborative efforts of Baggen with stellar Americana keyboardist, Bob Manor, and Texas guitar-slinger, Skip Moore.
